Anastasiya Kharytonava

Frontend Developer

I'm a skilful front-end developer with expertise in designing, developing, and maintaining web UI. Able to effectively self-manage during independent projects, team player, highly flexible and adaptive. Proficient in an assortment of technologies, including HTML, SASS, JavaScrip, React, Webpack, REST API, Flexbox, Grid, Linters, and Figma. Receptive to new ideas and different opinions.

Experience

2021 - present
WarecorpPol, Warsaw
Frontend Developer

Have created and implemented mailing for various browsers and email clients.
Developed web application from scratch.
Maintained existing projects and updated outdated tools and libraries.
Integrated chatGPT and DALLE-2 features into the project.
Communicated with the client during the development process to achieve the highest customer satisfaction and deliver the best experience possible.

2016 - 2021
Warecorp, Minsk
Frontend Developer

Effectively multi-tasked and worked well with internal and external teams.
Help to achieve a consistent look and visual theme across the website by promoting images and layout.
Have provided the final result according to the client's expectations.

2014 - 2016
EKA-Soft, Minsk
Junior Frontend developer

Designed and implemented web pages into CMS Drupal.
Improved readability, UX and page speed.
Suggested the most effective ways to attract customers.
